CRETE COLORS INTERNATIONAL

C² POWER POLISH

The right tools for your job. C² Power Polish is an easy-to-use grinding and polishing system which adapts to a variety of floor machines, creating a fast and complete process to finish a concrete surface. Grind and polish up to 1000m² per day with our innovative C² Power Polish system.

ADAPTABLE

C² Diamonds easily mount to the pan of a power trowel or the pad driver of an auto scrubber or swing machine.

Easily transition grits with our C² Hook Fasteners.

SAVE MONEY

Use machines you already have on hand.

Larger diamond size equates to less discs needed per machine.

Specially formulated copper resin diamond matrix for fast cutting.

FAST

Easy mounting with C² Hook Fasteners.

Polish up to 1000m² per day using an ordinary power trowel.

CHOOSE YOUR CUT

C² Diamonds are flexible to produce the look you are trying to achieve.

Cream polish: start at 100 or 200 grit

Salt & Pepper: start at 50 grit

CHOOSE YOUR FINISH

The C² Power Polish system allows you to customize the finish of your surface.

Matte finish: stop at 200 grit

Satin finish: stop at either 400 or 800 grit

High gloss finish: stop at 1500 grit

PROTECT YOUR FLOOR

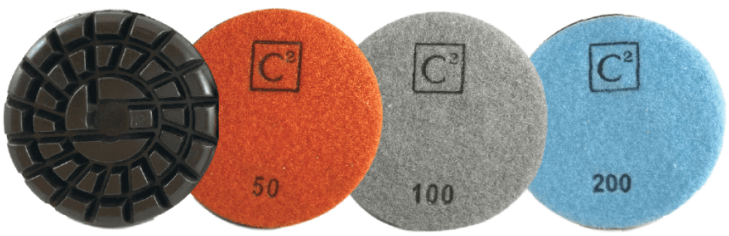

Seal the floor to add stain and abrasion protection

Natural finish penetrating sealer: **C² Protector**

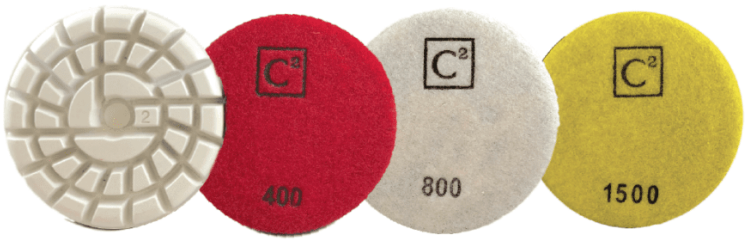

Glossy sealer with superior abrasion resistance: **C² Seal**

Glossy sealer with better stain protection: **C² Ultra Seal**

QUALITY YOU CAN SEE

Grits #50 - #200 are a copper resin diamond matrix and are run wet

Grits #400 - #1500 are a white resin diamond matrix and can be run wet or dry
