C² SEAL

High gloss floor sealer designed to enhance and protect your polished concrete floors.

C² Seal is a copolymer formulation that improves the surface sheen and stain resistance of conventional concrete, hardened concrete or cement terrazzo floors.

- High abrasion resistance
- High gloss floor with maximum light reflectance
- Eliminates the need for floor waxes and conventional coatings
- Breathable, UV stable. Will not yellow, discolor, peel or flake
- Ideal for warehouses, distribution centers and other high traffic areas
- Further improves the surface sheen and stain resistance of floors treated with C² Densifiers.
