

C² ULTRA MATTE

Matte protective sealer for indoor and exterior concrete

C² Ultra Matte is a durable, protective matte finish coating that dramatically increases the stain resistance of interior and exterior concrete floors. Ideal for floors that are prone to accidental spills of food products, household cleaners and industrial solutions.

- Produces a long-lasting, tough protective finish
- Treated surfaces maintain slip resistance
- Unique formulation boosts abrasion resistance
- Breathable, UV stable. Will not yellow, discolor, peel or flake
- Enhances the appearance of standard gray, integrally colored, dyed, stained or color-hardened concrete floors
- Perfect for surfaces hardened and dust proofed with C² Densifiers.

CRETE COLORS INTERNATIONAL

At Crete Colors International, our expertise is focused on bringing state of the art treatments to concrete floors. Our dedication to making cost-effective, planet safe and easy-to-use high performance products is the foundation of our business.

The C^2 brand is currently present in over 40 countries and we are consistently uncovering new opportunities for expansion. We pride ourselves on our global network or, what we like to call our "C^2 Family."

Simply put, we are here for you.
